# INDELIBLE

A SELECTION OF LANDSCAPES BY LEISL MOTT

# INDELIBLE

Hello and welcome to INDELIBLE !

This exhibition features a collection of recent paintings of places and times that have left an indelible impression on me.

From the Hawkesbury to Hill End and Sydney to the Scenic Rim, these 'painted postcards' are recordings of moods in a moment or important chapters.

All works are painted in oil on board using sketches and photographs as reference. Painting them back in the studio is always like revisiting them... a wonderful escape where I feel fully immersed once again in the sounds, smells and ambience of each place.

I hope some of that comes through for you too, even just for a moment!

Enjoy!
